

The Mortgage Process

Establish Your Affordability

Contact a mortgage adviser to get an indication of how much you could currently afford to borrow. You will need funds to cover your deposit (min 10%* of the property purchase price) as well as expenses like stamp duty, legal fees, insurance and life cover etc.

**Savings, Gifts, First Home Scheme, Help to Buy Scheme etc.*

This is demonstrated through a combination of regular savings, rent or an existing mortgage, and any existing loans. Documentation will be sought to support your application.

Demonstrate Your Repayment Capacity

Get Approval in Principle

This is an indication from a lender of how much they would be willing to lend you based on a preliminary application.

Once you have an offer on a property accepted, your mortgage adviser can arrange for a valuation to be carried out and you can now appoint a solicitor. A property survey is also strongly recommended.

Find the Perfect Property

Complete the Contract for Sale

This is an agreement between you and the property seller laying out the agreed price and planned completion date. This is dependent on checks and searches that your solicitor will carry out for you.

At this point, your loan offer will have issued. However, before you can draw down your mortgage, you will need adequate home and life insurance cover.

Put Required Insurance in Place

Complete Your Mortgage

Providing any additional information requested in your Offer Letter has been provided, your mortgage funds will be issued to your solicitor and your property purchase completed.
